

DJ AND PRODUCER IN MARRAKECH

Teepana is a DJ and producer based in Marrakech. He started music in 1992, aged 12, in France, and has been mixing for fun since 1997. He got serious about mixing in Thailand in 2015 and has played professionally since 2016: over 1,000 gigs, including The Mix, Club Naraya, Nobu Rooftop and Le 6 restaurant. He plays house, funk, hip-hop and electro gnawa in clubs, at private parties, villas, hotels and weddings, and builds every set around the room in front of him: dinner is not played like a dance floor at two in the morning. In 2026 he played the Summer Pool Party and the first CALOR at The Source. He releases his music under the same name: Mirrorball Ghost, a nu disco single at 123 BPM in an extended DJ version, and two albums, Golden Hours in deep house and Les Veuves de Chiens in trap and perreo, produced with production tools including AI. He also makes visualizers that react to the music, driven by the track's own stems, for his releases and for other artists.
